

A-525 FILTER CLEANER

A-525

FILTER CLEANER

- Effectively and rapidly remove carbonized oils, grease, dirt and other soil from fuel & lube oil filters, oil coolers and oil pre-heaters
- Can be used by spraying, brushing or soaking
- Economical cleaners

PRODUCT DESCRIPTION:

A-525 FILTER CLEANER is a synergistic blend of aliphatic and chlorinated aromatic hydrocarbons, and wetting and dispersing agents.

A-525 FILTER CLEANER is a remarkably heavy-duty solvent cleaner. It is designed to remove carbonized oils, greases, dirt and other soils from fuel and lubricating oil filters, oil coolers and oil pre-heaters.

It may have some effect on certain plastics, it is advisable to test before use.

APPLICATION:

A-525 FILTER CLEANER may be applied by spraying, brushing or soaking. It is mainly used for cleaning permanently fixed oil coolers, oil pre-heaters, metal and ceramic oil filters.

A-525 FILTER CLEANER should be used on a regular maintenance basis. This is to prevent the formation of clogging components which are difficult or impossible to remove.

Use neat.

PHYSICAL PROPERTIES

Appearance	: Clear to straw colour
Relative Density	: 0.85 – 0.95
Form	: Liquid
Flash Point	: >65

Packaging : Supplied in 25 litres non-returnable containers.
