SOOT REMOVER

AFT- 58

SOOT REMOVER

- Effective remove soot deposits from EGE and boiler fireside
- Reduce risk of soot fire at EGE
- Maintain EGE efficiency
- Reduce water wash frequency
- Reduce risk of corrosion at EGE
- Reduce disposal cost of soot deposits to shore after water wash

PRODUCT DESCRIPTION:

AFT-58 SOOT REMOVER is an effective, dry powder compound specially designed to prevent and reduce fireside deposits in boiler and Exhaust Gas Economizer (EGE).

AFT-58 SOOT REMOVER modifies deposits chemically and physically, allowing them to be easily removed by soot blowing or manual cleaning. Existing deposits may be loosened and disintegrate after a few weeks of treatment. It will help maintain the condition of clean exhaust gas systems

APPLICATION:

AFT-58 SOOT REMOVER can be safely and effectively used in any fireside application such as EGE and boilers, fireside. For EGE, the product is injected directly into the exhaust system upstream of the area to be treated. For boilers, the product should be injected through a suitable port ensuring that the powder is spread through the flame pack toward the back of the combustion chamber. The recommended dosage for both boilers and Exhaust Gas Economizer is 1 kg per day for every 400-500m² of surface area to be treated but the dosage may be altered according each system's variations.

PHYSICAL PROPERTIES

Appearance	: Green/Blue
Relative Density	: 1.7 – 3.5g/ml at 15°C
Form	: Powder
Flash Point	: N.A

Packaging : Supplied in 25 kgs non-returnable containers.
